

## PROSPEROUS PISCHE.

Everything indicating Long Continuance of Good Times.

The population of Pioche has increased in the last eight months from 750 to over 2000 inhabitants. All the store buildings and dwellings, that for many years past have been uninhabited, have now had the board coverings taken from the windows, and made to present a business front or form pleasant abodes for the steady growing population. New buildings are going up in various parts of the town, and the older ones are undergoing a complete renovation.

The Pioche Consolidated Mining & Reduction Company have just completed and started up one of the furnaces of its new smelting plant, now rapidly approaching completion. This one stack from the moment of starting has cheerily whistled the tune of success, and has already converted large quantities of rich ore into silver, ringing lead bullion, and all haste is now being made to complete and set in operation a second and larger stack which will start up inside of thirty days. This company has over 800 men directly and indirectly in its employ, and its monthly pay roll has been ranging from \$40,000 to \$50,000 and upwards for a long time.

As an earnest of great confidence in the success of the enterprise, the P. C. M. & R. Co. has spent over \$1,000,000 in the development of its mines, and in preparing its immense ore bodies for years of continuous stoping. It has also in the preparatory work graded and built over 18 miles of railroad, connecting its principle mines with the reduction works.

## The Pullman Car Company.

The Pullman Palace Car Company has decided to increase its capital stock from \$25,000,000 to \$30,000,000. The Company organized originally about a dozen years ago with a capital stock of \$6,000,000. The business of running palace cars became so profitable that the stock has to be watered to prevent the annual dividends from exceeding the capital stock. This is the eighth time the watering operation has been performed, and the undivided profits are over \$26,000,000.

This is the company which runs its palace cars and its gilt-edged conductors through the State of Nevada, and notwithstanding the immense profits of the business, these cars have not been subjected to a horizontal raise, nor their owners notified of an individual raise, in fact, they escaped the notice of the State Board of Assessors and have not been assessed at all.—Journal.

If the next Legislature will compel the rascals to keep the upper berth up, we won't growl about the taxes they escape.

The question is going the rounds of the press, "What did the Irrigation Congress at Carson accomplish?" The answer is given—"nothing"—and the writer or speaker thinks he has made a point. The fact is something was accomplished, and the free interchange of ideas and the interest aroused was worth much to the State. No convention or congress, or legislature is going to finish this business at one sitting or even decide upon a plan of action. The people must do the work, and it is they who must decide the methods by which it shall be done.—Enterprise.

The Silver State says there is a general talk in Humboldt of getting up a monster petition addressed to the State Board of Equalization, protesting in strong and unmistakable language against the present proposed raise of taxes in that county.

And the petition will probably be headed by people who never pay any taxes if they can help it.

The Signal Service station predicts fair and warmer weather.

## WM. UREN,

GOOD WORK A SPECIALTY.

PRACTICAL HARNESS-MAKER

MANUFACTURER AND DEALER IN

## HARNESS &amp; SADDLES.
